

Kassette

Kassette, every party music solution for the music blues, available on Android store Mid-April 2015

An app to allow everyone to the DJ at any social gathering, now aviable on the Android store.

San Diego, California – March 20th 2015 – Available Mid-April the app Kassette. WolfPack offers you Kassette an app that allows you to be in control of the music being played no matter what the occasion.

Kassette essentially allows you to push your music directly to the phone that is connected to the music player wheatear that's in a car or a stereo. This makes it so you don't have go through the hassle of passing the auxiliary cord or setting up Bluetooth every time someone wants to listen to their music. Kassette also sports Spotify if you don't have the song on your local device search it on Spotify and share it with the group to listen to. "Wolfpack delivered every road tripper's solution for music blues".

Kassette will be available for free in Mid-April with ads and a premium version for 99 cent with no ads. The app will be available worldwide on Google Play Store and iOS implementation is in the making.

Please visit kassette.me (<http://kassette.me/>) for further information on the app more screenshots and how to use information.

Kassette was developed by WolfPack Inc, a development company founded in San Diego If you would like any further information on Kassette, Your Dj Companion, or you would like to schedule an interview, please feel free to contact:
